

### Important Information About Your Drinking Water

Public water systems must routinely monitor for drinking water contaminants. CITY OF SMITHVILLE, TX0110003 failed to monitor for or meet drinking water standards. The table below lists each violation, the time period(s), potential health effects, and associated analytical results (if applicable).

Originating Violation	Violation Number	Time Period(s) of Violation(s)	Potential Health Effects	Analytical Results
A Triggered Groundwater Rule (GWR) Monitoring/Reporting (M/R) violation	2019 90059365	10/01/2017 - 10/31/2017	The system failed to collect the required number of triggered source bacteriological samples for fecal indicator monitoring of the groundwater system following a positive routine total coliform result in our distribution system.	No Analytical Result(s) Associated
A Triggered Groundwater Rule (GWR) Monitoring/Reporting (M/R) violation	2019 90059366	10/01/2017 - 10/31/2017	The system failed to collect the required number of triggered source bacteriological samples for fecal indicator monitoring of the groundwater system following a positive routine total coliform result in our distribution system.	No Analytical Result(s) Associated

You do not need to boil your water or obtain alternative water supply (e.g. bottle water) at this time. However, if you have specific health concerns, consult your doctor

If you have a severely compromised immune system, have an infant, are pregnant, or are elderly, you may be at increased risk and should seek advice from your health care providers about drinking this water. General guidelines on ways to lessen the risk of drinking water contaminants are available from EPA's Safe Drinking Water Hotline at 1-800-426-4791.

#### Corrective Action:

CITY OF SMITHVILLE has taken the following action(s) to return the system to compliance:

The City of Smithville completed the required retest and all results were good.
